Copy 6 of 7

6 April 1956

MEMORANDUM FOR: Project Cover Officer

SUBJECT : Drivers' Cover

25X1A6c

25X1A9a

1. The attached cable copy from [REDACTED] reminds me of the whole question of the drivers' cover. I have discussed this question with [REDACTED] who has taken over the matter of processing for all intents and purposes as of now. We would plan to get passports for the drivers when they come to Washington 30 April before their departure seven days later. The question is, however, how will they be documented? It is my understanding that they are to be on Lockheed contract. Would they not, then, be documented the same as the rest of the contractors; that is, as DAF-CIV's? You might want to discuss this matter with [REDACTED]

2. Another matter: I have also mentioned this to [REDACTED] as he will be vitally concerned with it. I believe it is also a matter of some interest to you. It is present intention that we may possibly use [REDACTED] drivers. If we do, we must remember that they are black entries; this presents a problem regarding documentation. You might be able to give [REDACTED] some help on this matter.
